## Individualized Supported Living Services and Budget Manual

Guideline #37-ISL Budget Guidelines has been converted to a manual. Changes are described below.

- A table of contents was added.
- The following statement was added to page three under philosophy and on the ISL budget form "ISL Providers shall maintain compliance with 42 CFR 441.301."
- The language regarding Registered Nurse provision was updated to the correct waiver service title "ISL Registered Nursing" and now reflects the current practice of authorizing the service on an annual basis.
- The ISL Budget, Staffing Pattern and Environmental Site Review were added to the manual as appendices. These can still be found as stand-alone documents at <http://dmh.mo.gov/dd/forms.html>.
- At the request of a stakeholder, the Environmental Site Review now includes criteria established by the HCBS rule and states "This ISL location meets the needs of the individual(s)" instead of "passed inspection".

The Individualized Supported Living Services and Budget Manual, along with other division manuals, can be found at: <http://dmh.mo.gov/dd/manuals/>.
